The Journey Begins

One sunny day, Funshine was riding his scooter through the Care-a-Lot Forest when he came upon a giant wooden gate. He used his belly badge power to shine some light on the mysterious area, but before he could get a closer look, the gates opened and he was pulled inside . . .

Meanwhile, in Care-a-Lot, Grumpy was showing off his newest invention, an all-terrain vehicle called the *Cloudseeker*, to Tenderheart, Share, and Good Luck. Grumpy felt excited (well, as excited as Grumpy can be) to take his new ride on a well deserved vacation. But suddenly the Caring Control Tower intercepted a distress call. Funshine was lost in the Silver Lining and needed help! There was only one way to get to Funshine fast enough—Grumpy's vacation would just have to wait.

Good Luck, Share, and Cheer joined Grumpy on his mission to find Funshine. But when the bears found Funshine, they also discovered a lost Whiffle named Dibble and couldn't just leave her behind. The bears soon learned that Bluster and his Bad Crowd had been trying to take over the Silver Lining by stopping the Whiffles from planting their Seeds of Caring.

Now the Care Bears face a new mission: protect the Whiffles and the Silver Lining from Bluster and his Bad Crowd. After all, if Bluster succeeds in taking over the Silver Lining, Care-a-Lot could be next!

Meet the Care Bears

Get ready for fun!

The Care Bears are a group of lovable, huggable BFFs going on adventures and living the sweet Care Bear life.

Before their trip to the Silver Lining, Funshine, Good Luck, Share, Cheer, and Grumpy were enjoying their peaceful days in Care-a-Lot, spreading caring and sharing across the world. But now they face their most serious task yet: protect the Silver Lining from Bluster and his Bad Crowd. For that, they have to rely on more than just their belly badge magic and empathy to do what they need to do.

Luckily, the Care Bears aren't alone on their mission. They have their friends Tenderheart, Bedtime, and Wish, who provide guidance from Caring Control Tower as the rest of the team travels through the Silver Lining. They lean on each other and learn more about themselves, embracing courage, determination, and friendship in order to spread good caring vibes to the world.

But the Care Bears still face many challenges—things in the Silver Lining don't always work quite the way they do in Care-a-Lot. The Whiffles and Care Bears' caring clashes with the negative energy of Bluster and the Bad Crowd, generating a storm of static that causes unusual behavior in almost everything—communications with Caring Control Tower, rainbow power, and even belly badges and the Care Bears Stare!

Even though they miss their home and friends in Care-a-Lot, the Care Bears know they have to see their mission through. No one knows for certain what lies ahead for the mission team, but with a little magic and a whole lot of caring, they're sure to succeed.

CHEER BEAR

CLOUDSEEKER ROLE:
LEAD PILOT

Caring is magic! Positive, happy, and kind, Cheer Bear's can-do attitude can get her and her friends through any situation. A top scorer in video games, Cheer's natural talent and superfast reflexes help her pilot the *Cloudseeker* over the difficult and sometimes surprising Silver Lining terrain. Thanks to Cheer's excellent judgment, her friends trust her to make quick decisions in sticky situations. This team leader rises to every challenge and is thankful to have all of her friends by her side.

CHEER'S DOS AND DON'TS FOR SPREADING CHEER

- ★ **DO:** Throw a fun party
- ★ **DON'T:** Invite people to a party and cancel it one minute before it starts
- ★ **DO:** Give thoughtful presents
- ★ **DON'T:** Give a present and then take it back
- ★ **DO:** Have fun playing video games
- ★ **DON'T:** Throw the controller when you're upset because you lost

Belly Badge Power:

Cheer can make a rainbow others can stand on, but in the Silver Lining it only exists for a short period of time before it begins to disappear, one color at a time.

FUNSHINE BEAR

Too legit to quit! This laid-back bear with a heart of gold is always on a quest to have more fun. Whenever the Care Bears throw a party, they can rely on Funshine Bear to show off his DJ skills and sweet dance moves. When it comes to serious tasks, Funshine always tries his best. If he fails, he just shrugs it off and tries again. It's always sunny wherever Funshine is, because he can turn any cloudy day into 100 percent awesomeness.

FUNSHINE'S FAVORITE HOBBIES

- Skateboarding and showing off tricks
- Being the DJ at parties
- Hanging out with Good Luck Bear
- Reading comics
- Playing superhero with Dibble

Belly Badge Power:

Funshine can create a sun to light his way, which is especially handy in a dark cave, but in the Silver Lining it might begin to float away. He sometimes uses his sunbeam to spotlight his awesomeness.

GOOD LUCK BEAR

CLOUDSEEKER ROLE:
EXPERT
NAVIGATOR

One lucky bear! Good Luck Bear is used to winning every game and having everything handed to him. He's just lucky that way. But now that he's in the Silver Lining, his luck has turned for the worse, and he has to rely on his determination and enthusiasm to get him through each difficult task that he faces. Luckily, Good Luck has his friends by his side to help him along the way. When he's not on a mission to help the Whiffles, Good Luck enjoys completing challenging puzzles, performing his rainbow juggling routine, and joking around with his best pal, Funshine.

GOOD LUCK'S ADVICE FOR WHEN YOU'RE FEELING UNLUCKY

- ✧ Practice makes perfect
- ✧ Believe in yourself
- ✧ Make your own luck
- ✧ Ask for help
- ✧ Spread positive vibes

Lucky Badge Powers

Good Luck can send his Lucky Charm badge to help out in an emergency. But in the Silver Lining, it is unbreakable.

GRUMPY BEAR

**CLOUDSEEKER ROLE:
MECHANIC AND
INVENTOR**

When he isn't tinkering with his latest inventions, Grumpy Bear can be found cooking or spending time with his newest pal, Dibble, a tiny Whiffle the team found while they were looking for Funshine. Grumpy is always making improvements to his invention, the *Cloudseeker*, which is the main vehicle for the Care Bears on their mission in the Silver Lining. He is sometimes a tad overprotective of the *Cloudseeker*, but he has come to terms with sharing it with the team and that it may even get a scratch every now and again. At times he can come off as a bit grumpy on the outside, but this lovable bear has a good heart on the inside.

CLOUDSEEKER

Although the *Cloudseeker* was originally built by Grumpy for vacation activities, it is the perfect high-tech search-and-rescue vehicle and is able to adapt to any environment. It's also the bears' home away from home, which Grumpy tries to make more comfortable along the way.

Belly Badge Power:

Grumpy can create a rain cloud, but in the Silver Lining there's no telling if it will rain one drop or a torrential downpour that causes a flood.

SHARE BEAR

**CLOUDSEEKER ROLE:
COMMUNICATOR
WITH CARING
CONTROL**

Sharing is caring! This friendly, empathetic bear is the glue that holds the Care Bear crew together in times of stress. If there's ever a disagreement, Share Bear is always able to find a friendly solution. Her excellent communication skills make her the perfect ambassador for when the Care Bears meet new, sometimes strange, creatures in the Silver Lining. Share Bear has many interests, including painting, baking, and talking to animals. But most of all, she enjoys connecting with others and sharing the love.

GET IN ON THE SHARING! YOU CAN SHARE:

- ★ Experiences
- ★ Friends
- ★ Love
- ★ Food
- ★ A good laugh
- ★ Germs (okay, maybe try not to share those!)

Belly Badge Power:

Share can duplicate whatever object she wants to share, though in the Silver Lining the objects sometimes disappear or duplicate in strange ways.

Team Care-a-Lot

Located in Caring Control Tower high above Care-a-Lot, the home-base team watches over the Silver Lining for any warnings of Bluster and his Bad Crowd, while also tracking the *Cloudseeker* on its journey. When a sign of evil-doing appears, the team alerts the Care Bears and helps them with anything they may need to be successful on their mission. Sometimes communication can be difficult in the Silver Lining, but the Caring Control Tower team always tries their best to get their messages through.

TENDERHEART BEAR

There's no such thing as too much caring! As the team's anchor, Tenderheart Bear helps to guide the Care Bears on their mission in the Silver Lining. At times, he worries about the safety of his friends, but he knows each Care Bear has found their rightful place within the team. Kind and wise, Tenderheart is an excellent source of good advice and only wishes he could do even more to help his friends. After all, when it comes to Tenderheart, there's no such thing as too much caring.

Fun Fact: Bluster once impersonated Tenderheart, but was exposed when he said, "Nothing you need to care about." Tenderheart would never say that!

Did You Know?: Watchful Bear taught Tenderheart everything he needs to know to be a good leader.

WISH BEAR

Wish it. Dream it. Do it! Practical, supportive, and nurturing, Wish Bear is always there for the Care Bears, no matter what. An excellent listener who is always open to others, Wish has been known to grant wishes even before they've been wished. This nurturing bear believes anyone has the power to grant a wish if they listen and are open. She's proud of all that the Care Bears have accomplished on their journey, especially how much each bear has learned and grown.

Fun Fact: There's nothing quite like a hug from Wish.

Did You Know?: According to Wish, wishes are a pay-it-forward thing: to make a personal wish come true, help others achieve their wishes.

BEDTIME BEAR

Dreams are his thing! As Care-a-Lot's resident historian, Bedtime Bear loves to speed-read volumes of ancient books from the Caring Control Library. Fortunately for the Care Bears mission team, whatever Bedtime reads, he remembers, right down to the page number. He's a wealth of information for the Care Bears and always tries to assist them whenever they need help . . . even if it's during nap time.

Dreamy Detail: Bedtime is usually found sleeping in his star-patterned hammock in the Caring Control Library.

Even More Care Bears!

Care-a-Lot is filled with a wonderful variety of Care Bears. From the best listener to the most patriotic, there's a bear for everyone! Their differences may make each bear unique, but they all have one thing in common—caring, of course!

WATCHFUL BEAR

This enlightened bear's words of wisdom guide the Care Bears in their times of need and help them get back on the right path when they seem lost. When a bear needs Watchful for guidance, he will appear before them. He might come to them in a meadow, on a mountain, or even in a dream, but he will be there.

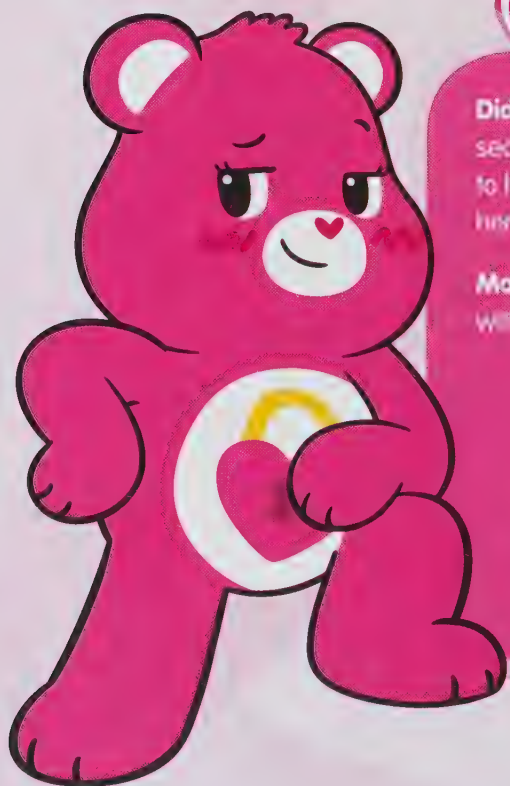

Watchful's Words of Wisdom: "Listening is the beginning of caring. Listen and learn. Listen and hear what others have to say. And always listen to your heart. Be sure the things in your heart are true and listen to them."

It may be hard to get this hilarious Care Bear to take anything seriously, but her comedic attitude always brightens her friends' day.

Did You Know?: Laugh-a-Lot believes giggles can cure anything.

Fun Fact: When Laugh-a-Lot is around, even Grumpy can't help but crack a smile.

SMART HEART BEAR

If Smart Heart Bear is reading a really good book, she can't put it down . . . literally! She'll even read-walk, which causes her to crash into things (and other Care Bears). If she does take a moment to lift her head and stop reading, it's usually to explore the unknown. Thanks to her constant curiosity, this inquisitive bear is able to find new and exciting ways to help her friends.

Did You Know?: One of Smart Heart's favorite things is a bookmark: Love-a-Lot made for her during last year's Festival of Hearts.

Silver Lining Creatures

THE WHIFFLES

These happy, huggable, and completely adorable creatures may not say much, but they have a very important job. The Whiffles are responsible for creating new areas of Care-a-Lot by planting a Seed of Caring in barren areas of the Silver Lining. But their work doesn't stop there: To thrive as a new part of Care-a-Lot, the new area needs special nurturing that only the Whiffles can provide.

Most Whiffles act like gardeners, whether they're tending the plants with magical nutrients of caring or bringing water to the land. For example, Sun Whiffles absorb sunlight and take it where it's needed to nurture plants. If the Whiffles stop working (usually thanks to Bluster and his Bad Crowd), any newly planted area begins to wilt and wither. When this happens, an alarm sounds in Caring Control Tower and the Care Bears rush to help.

Did You Know?: Whiffles can sleep for 100 years if a chant is recited. The chant must be recited backward to wake them from their slumber.

Fun Fact: Whiffles work together to accomplish tasks they can't do alone, like moving heavy objects.

DIBBLE

Sweet and innocent, Dibble is a cute little Whiffle that the Care Bears team finds in the Silver Lining. She was once lost and alone, but she quickly became an important member of the Care Bears crew. The Silver Moonflowers rarely bloom, but when they do, they glitter and shine.

Motto: "Riffle!"

*The only word Riffle can say is *Riffle*

Fun Fact: Riffle isn't actually this Whiffle's name, it's the name of his home.

OLD WHIFFLE "KEEPER OF THE TREE"

This old, mystical Whiffle lives inside the magical Piñata Tree. For thousands of years, the Keeper of the Tree has emerged at sunrise and then waits for someone—or something—to make him erupt in uncontrollable giggles. If he giggles hard enough, all the colors of the rainbow rise up the Piñata Tree and it explodes with blossoms, showering the surrounding forest with replenishing magical energy.

Did You Know?: The blooming of the magical Piñata Tree is an event that has happened every year in the Silver Lining since ancient times.

The Bad Crowd

This group of do-badders is led by the ultimate baddest of the bad, Bluster. Under Bluster's guidance, the rest of the Bad Crowd acts as Bluster's minions, helping him carry out his evil schemes. The Bad Crowd enjoys creating bad vibes among the innocent Whiffles. They plot and conspire to steal the Seeds of Caring and stop the Whiffles from creating new areas of Care-A-Lot.

Motto: "Are we bad? Yes we are!"

BAD CROWD RULE VIOLATIONS

- Saying thank you
- Being polite
- Offering to help someone
- Caring in any form
- Hanging out with Core Bears

BLUSTERMOBILE

Bluster prefers to travel in the baddest way possible, which is why his *Blustermobile* is complete with a roaring engine and all kinds of evil gadgets like the Rainbow Wrecker, Bad Vibes Plow, and the Soil Sizzler. The *Blustermobile's* screeching tires can be heard throughout the Silver Lining typically wherever the Whiffles are gathered. Even though the *Blustermobile* is much smaller than the *Cloudseeker*, it can still cause quite a lot of destruction.

BLUSTER

The leader of the Bad Crowd is a mischievous prankster who delights in all things bad and in counteracting the Care Bears' caring. Bluster wants everything his way, and he's used to getting it, thanks to his minions, the Bad Crowd. When he isn't spreading doom and gloom across the Silver Lining, he's working on his expansion plans for Blusterland—an awful world full of fun. In fact, it's Bluster's dream to have Blusterland one day take over all of the Silver Lining!

Bad Fact: Ages ago, Bluster made a deal with the elder Care Bears: He'd stay out of the Silver Lining if the Bears would leave him alone. He's since broken that agreement.

Did You Know?: His favorite beverage is a stinkweed smoothie.

ROBBIE

Bluster's second-in-command, Robbie, is a techno-genius who loves helping her boss hatch incredibly devious plans, and coming up with inventions to carry them out. Robbie is always inventing evil machines like the Tracker Hacker—a device that uses the concentrated goodness inside a Seed of Caring to block bad vibes and prevent the Care Bears from tracking them. Bluster relies on Robbie for carrying out most of his evil bidding, including planning his yearly summer vacation.

Did You Know?: Robbie and Grumpy developed the first gadget built by a joint team from the Bad Crowd and the Care Bears.

Likes: Inventing evil contraptions, being bad, and eating veggie kebabs.

MALCOLM

A hotheaded, sneaky genius, Malcolm is constantly competing with Robbie for Bluster's approval. He once used the Bad Seed machine to create the Ultimate Bad Seed by draining all Bluster's badness into the seed. Then, by touching the seed, Malcolm absorbed all Bluster's badness and became the new (temporary) leader of Blusterland!

Bad Fact: For Bluster's summer vacation one year, Malcolm invented Malcolm's Magnificent Weather Dome—a force field that can protect against any weather, while letting in a breeze and keeping out the rain.

Did You Know?: For the brief moment that Malcolm was the leader of Blusterland, he renamed it Malcolmland!

PLUNK

The nicest member of the Bad Crowd, Plunk almost gets banished from Blusterland for being too sweet. Bluster gave Plunk one last chance: get the Care Bears to show him the path to the Cavern of Caring and reveal the location to him. But after getting to know the Care Bears and Whiffles, Plunk has a change of heart and decides to leave the Bad Crowd and live among the Whiffles.

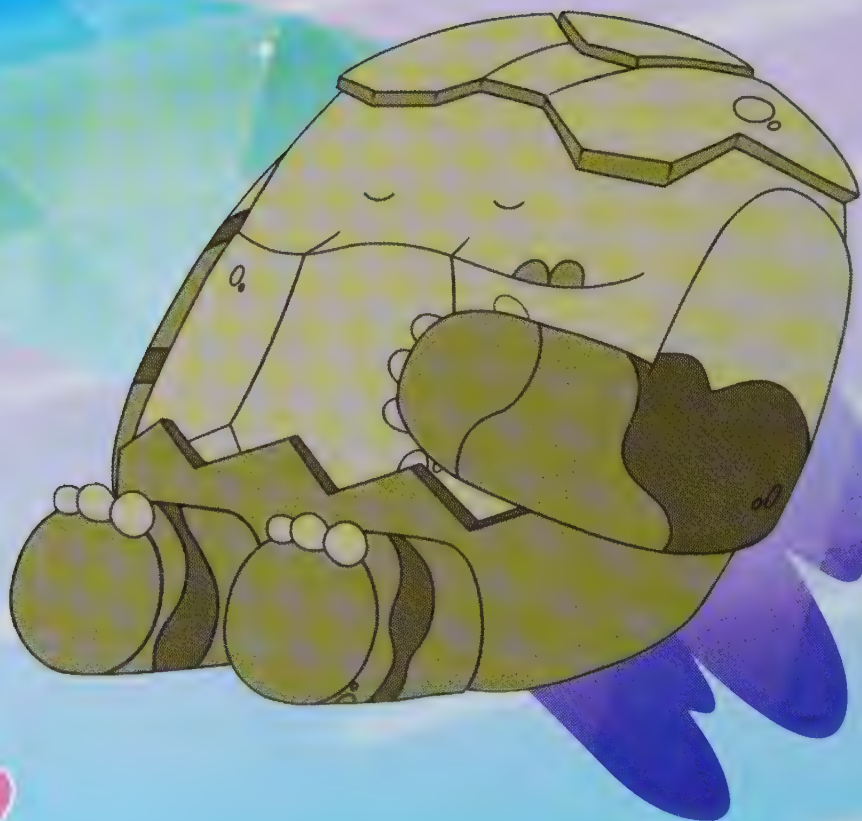

Fun Fact: Plunk first got in trouble with Bluster when someone sneezed and he said "gesundheit."

Likes: Being polite, making friends, and playing video games

YOORG

This giant rock creature, long misunderstood as destructive, is really just an easily offended gentle giant who can usually be found enjoying a peaceful snooze. If Yoorg is up and moving around, it can only mean one thing—someone hurt his feelings. In that case, he pulls up his rocks and goes on a journey, seeking another, less offensive, place to sleep. His tracks can cause damage to the landscape and ruin the Whiffles' hard work.

MOSSY THE MONSTERPLANT

Originally created by Bluster's Bad Crowd to scare the Whiffles out of the Silver Lining, the Monsterplant thought the Whiffles were cute and decided to make friends with them instead. At first, the Whiffles were afraid of the creature's frightening looks. But Dibble befriended him despite his menacing appearance and named him "Mossy." Dibble introduced Mossy to the rest of the Whiffles and now they love to play on him by climbing up and sliding down his back.

ICELINGS

The Icelings are creatures who dispense Whiffle-Waffle cones—a colorful ice treat in a cone that helps the Whiffles cool down while they work. The Icelings live in a hidden Ice Cave full of beautiful icy stalactites and stalagmites where they harvest blocks of ice and grind them into flakes. One time, Robbie invented an Instant Ice Injector that was able to capture the Icelings. The Whiffles were too hot and tired to work without their Whiffle-Waffle cones, so it was up to the Care Bears to find the Icelings and free them from Robbie's trap.

PETUNIAS

These magical talking flowers were once infiltrated by Bluster and Robbie who used animatronic petunias to spread rumors about the Whiffles throughout the flower patch. When the Queen Petunia heard the rumors, she quickly spread them among the other flowers and they got into an argument with the Whiffles over it. But once the Care Bears stepped in to help resolve their issues, they learned an important lesson: Just because you hear something, doesn't mean it's true.

THE CRASHITITE RUMBLERS

This family of enthusiastic, rowdy boulders likes to play rough—and they never stop playing. It's a good thing they're covered in Crashitite, the strongest element in the Silver Lining. But when the Crashitite Rumlbers roll into Whiffle territory, their all-day and all-night rumbling causes the Whiffles to make mistakes in their caretaking chores.

Fun Fact: A Rumlbers word is as unbreakable as his hide.

Crashitite Chant: "We ramble, we rumble, we slam, and we tumble. So watch out grumblers, here come the rumblers. Let's rumble!"

THE GREEDY GNOMES OF GLENDORN

They may look cute and cuddly, but these wee-folk fools are a bottomless pit of selfishness. Everything they see, they want, and whatever they can't get—well, that just makes them weepy and whiny. But when Love-a-Lot Bear gives Gus and Garth her heart crystal, the gnomes leave behind their greedy ways and learn how to share. Whenever they start feeling greedy, they just need to do something caring for someone and the greed will go away.

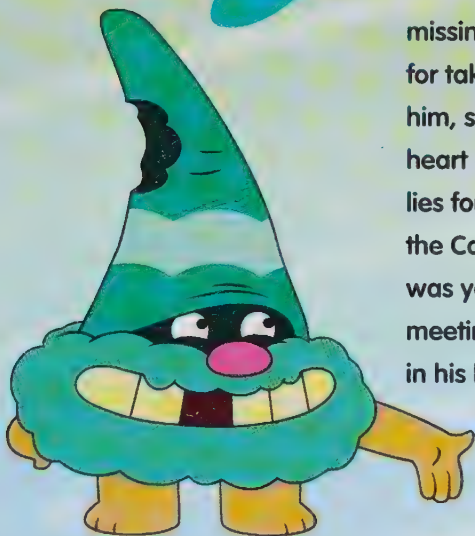

GUS

With a heart filled with greed and an eye for sparkly things, this gnome is quick to blame his companions when things don't go according to plan. Gus lives in a cave with Garth and spends a lot of time arguing with him about who is greedier. Even when Love-a-Lot gave Gus and Garth her heart crystal, the gnomes argued over who got to give it to each other. Recently, Gus has given up his selfishness, thanks to Love-a-Lot's guidance about sharing and caring.

GARTH

This stumpy gnome with a missing front tooth had a reputation for taking things that didn't belong to him, such as Love-a-Lot's scooter and heart crystal. When it came to crafting lies for important missions—like eating the Care Bears' pancakes—Garth was your go-to gnome. But now, after meeting Love-a-Lot, Garth has traded in his lies for acts of kindness.

UNCLE G

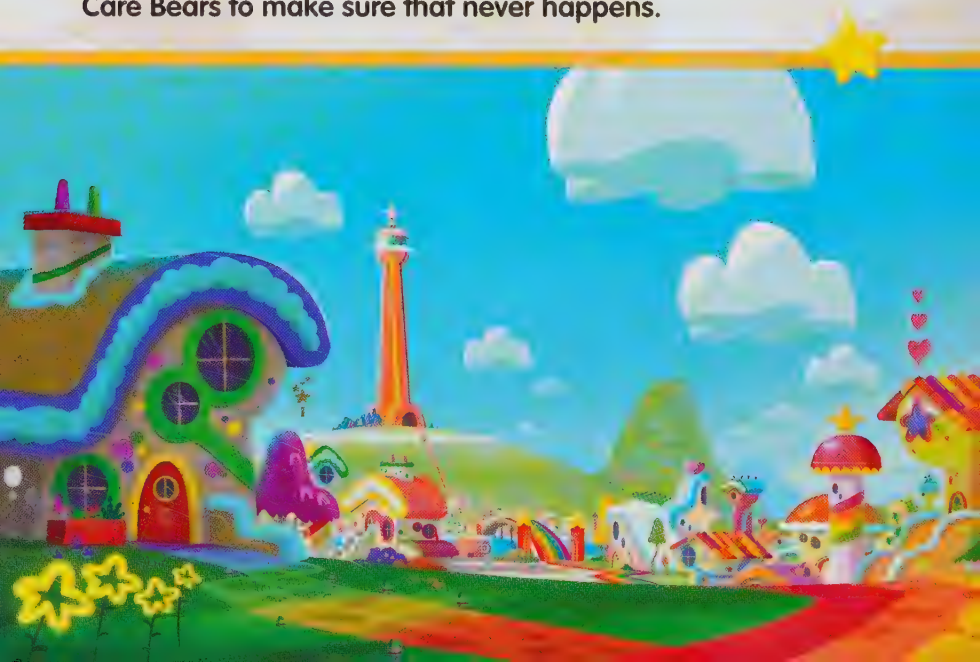

Uncle G is an older, sourpuss gnome who is uncle to Gus and Garth. Uncle G has an insatiable appetite and an aversion to hugs. This unfriendly gnome believes being greedy is a gnome's duty and highest honor. As valedictorian of his class at Greed School, Uncle G became an expert at being selfish and is completely appalled by Gus and Garth's niceness.

Care-a-Lot

CARE-A-LOT

Home to the Care Bears, Care-a-Lot is a magical, lush landscape full of beauty and color. It is constantly expanding, too, thanks to the Whiffles planting Seeds of Caring in the Silver Lining and taking care of the new growth. On the outskirts of Care-a-Lot sits the Castle Gate and an immense cloud wall that is the boundary of the Silver Lining. If Bluster eventually takes over the Silver Lining, his expansion plans include Care-a-Lot. It's up to the Care Bears to make sure that never happens.

CARING CONTROL TOWER

High above Care-a-Lot sits a majestic tower with a 360-degree view of the surrounding land. The impressive interior of Caring Control Tower is equipped with giant video screens, wall-size map displays, and a variety of control consoles. Spiral stairs and a quick-drop fireman's pole lead to a large library of ancient books, which contain the accumulated lore about Care-a-Lot and the Silver Lining. The library has computer monitors and communication consoles for interfacing with the Control Level above.

BLUSTERLAND HQ

In a far, dark corner of the Silver Lining sits Blusterland, the headquarters for Bluster and his Bad Crowd. Blusterland is a theme park with cheesy rides and carnival booths that is a celebration of all things bad. It's small, but Bluster has plans to expand it to one day cover all of the Silver Lining. By planting Bad Seeds, Bluster and his Bad Crowd could turn the Silver Lining into a grungy landscape, perfect for the expansion of Blusterland. But what happens when he's taken over the Silver Lining? Well, that plan is something he *cares a lot* about . . .

BAD SEEDS

The seeds that make Blusterland grow are pure, compressed unhappiness. Bad Seeds are misshapen lumps about half the size of Seeds of Caring. When planted, they quickly alter the landscape into a gloomy sight. They were invented by Robbie when she got the idea to take bad feelings and turn them into Bad Seeds.

SILVER LINING

Home to the Whiffles, the Silver Lining is a realm of natural wonders, unique creatures, and a diverse landscape full of majestic mountains, beautiful lakes, and spectacular waterfalls. When Whiffles plant a Seed of Caring, the seed transforms the Silver Lining into a new region of Care-a-Lot, expanding it for future caring needs. There's never a dull moment in the Silver Lining with Bluster and his Bad Crowd trying to stop the Whiffles' work so he can turn the Silver Lining into a new area of Blusterland.

SEEDS OF CARING

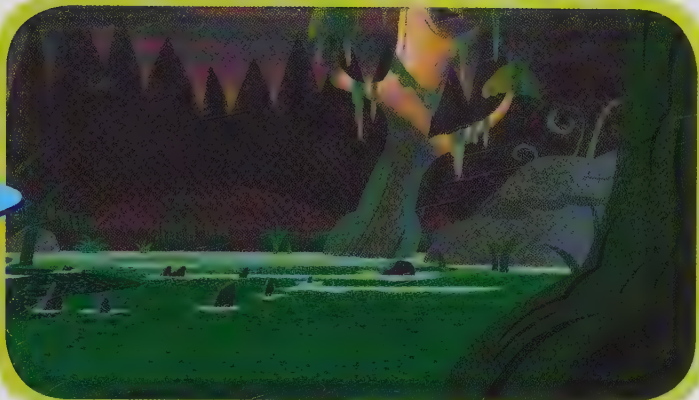

The Seeds of Caring are rainbow-colored spheres stored in a majestic underground grotto hidden deep within the Forest of Feelings. A seed's protective outer shell can only be unlocked during the Whiffles' planting ceremony, which releases the magical seed within that's full of concentrated caring. When a Seed of Caring is planted, it creates a new area of Care-a-Lot for the Whiffles to nurture.

CAVE OF GLENDORN

Home to the gnomes Gus and Garth, the Cave of Glendorn used to be a pretty standard gnome cave filled with typical, good old gnome grime and grunge. But when Gus and Garth leave behind their greedy ways, they transform the cave into a welcoming home where tall smile-flowers bloom in planters just outside the cave's entrance. Their shared prized possession, the heart crystal gifted to them by Love-a-Lot, sits on top of the fireplace mantel.

SWAMP OF SHADOWS

Just beyond the towering trees of the Singing Pines lies the Swamp of Shadows. This dark, mysterious place, with swampy trees and moss-draped branches, is not for the faint of heart. But even though the ground is covered by a murky green liquid, this marshy area is beautiful in its own way.

★ VALLEY OF THE WHISPERED WIND

The Valley of the Whispered Wind is a windy valley where the wind whispers doubts and insecurities, draining the Care Bears of their confidence and even their color. The wind plays on their fears and doubts. It knows what scares each bear. With Watchful Bear's guidance, the Care Bears are able to make it through the whispering wind until it vanishes.

MARIGOLD GROVE

This open woodland, dotted with flowering bushes, is home to the Creek of No Color, a broad stream of clear water glittering with magical sparkles. If someone becomes covered in magical colors, they just hop in the creek and the color will wash away.

CARE BEAR BEACH

Care Bear Beach is the perfect tropical vacation site for the Care Bears, featuring beach chairs, sun umbrellas, a volleyball net, and a massive barbecue grill. When the Care Bears aren't splashing in the glistening lake, they can boogie while DJ Funshine spins beats at his nonstop dance party. Crabitses, cute creatures that look like a crab combined with a rabbit, can be seen clicking their claws in time to the music.

BLUSTER BEACH

On the opposite shore of Care Bear Beach lies Bluster Beach, which is basically the complete opposite of Care Bear Beach. Everything is Blusterland-themed, from the fog machine pumping creepy mist to the cabana serving stinkweed smoothies. The DJ booth blasts bad tunes and, if the music is loud enough, it can be heard on the shores of Care Bear Beach.

MOUNTAINS OF MIST

The Mountains of Mist boast majestic, steep mountains that are incredibly high. A narrow opening in the solid wall of mountains provides the only access through to the other side. The mountains surround the Valley of the Mist where the Motherling lives, a birdlike being made of feathery mist and light. The Care Bears help her find her babies when they go missing.

GLASS GLACIERS

On the chillier side of the Silver Lining sits the Glass Glaciers. The ground is covered with pillars of beautiful ice that reflect every color of the rainbow. Whiffles dedicated to this area work hard to polish the glaciers so they remain shimmering. A legend about this magical place says that if someone stares into the sparkling surface of the ice, an image of what they would like to become will look back at them.
